ABOUT ME

Graduated in Computer Engineering from ISEP, with interests in software development, AI, and cybersecurity. I have experience in web development projects (full stack), databases, and agile methodologies, valuing adaptability, communication, critical thinking, and teamwork. I'm looking to keep growing professionally and contribute to high-quality, impactful technology solutions.

INTERPERSONAL SKILLS

- Adaptability
- Communication
- Project Management
- Critical Thinking
- Teamwork
- English (Advanced Level)
- Native Portuguese

EDUCATION AND TRAINING

- Bachelor's Degree in Computer Engineering** 2023 - 2026
ISEP - Instituto Superior de Engenharia do Porto
Average: 14 values
- Secondary Education - Professional Course with Own Plan - IT Area.** 2020 - 2023
CIC - Colégio Internato dos Carvalhos
Average: 19 values

WORK EXPERIENCE

- Curricular Internship - Software Engineering Intern** feb 2026 - jun 2026
Ambidata Group - São Félix da Marinha
Modernization of legacy modules of LabWay-LIMS®, an integrated laboratory information management platform, by migrating components developed in Windows Forms, C# and VB.NET to a web-based solution using Blazor, JavaScript, CSS, and HTML. Involvement in requirements gathering, development, testing, and validation phases, within a SCRUM methodology framework, for an enterprise product used by over 10,000 users and more than 300 clients.
- Beach Bar Employee (Seasonal)** jul - sep (2025 - presente)
Palheiro Velho - Praia de Esmoriz
Table service and order management, customer service and support, drink preparation and service, cleaning and maintaining the space, working with the team to ensure efficient service during busy times.
- Curricular Internship (12th grade)** jul 2022 - dec 2022
Centro Tecnológico do Calçado de Portugal (CTCP) - São João da Madeira
400-hours internship at CTCP, developing skills in IT and technological development. Exposure to electronics and programming through Arduino projects. Participation in developing web solutions using technologies like HTML, CSS, JavaScript, ASP, and ASP.NET.

PROJECTS DEVELOPED

Modernization of LabWay-LIMS feb 2025 - jun 2025

Website LabWay-LIMS

- Modernization of legacy modules of LabWay-LIMS®, migrating features from Windows Forms, C#, and VB.NET to a web solution with Blazor, JavaScript, CSS, and HTML. Involved in requirements gathering, development, testing, and validation using SCRUM methodology, contributing to an enterprise product with over 10,000 users and 300 clients.

Professional Aptitude Test sep 2022 - jun 2023

Website SHOEDS - Shoe Design

- Development of the SHOEDS Project - Shoe Design (frontend + backend), in which CTCP was one of the integrating companies in this project and responsible for creating and managing the website. This project involved 8 international partner entities from 6 European countries: Portugal, France, Greece, Italy, Romania, and Turkey.

Project feb 2022 - jun 2022

Website Boavista Trail

- Development, during 11th grade, of a website (frontend + backend) for the Boavista Trail team, consisting of a homepage for promotion and a private area with features for managing athletes, users, products, events/competitions, and members;
- Boavista FC has around 1,500 athletes across 30 sports, with Boavista Trail having 82 associated athletes.
